I deem it a privilege & pleasure while releasing the Latest edition of our catalogue which has in it many new products incorporated as well, for the information & ready reference of all our worthy stockist & Clientele. The 46 years old journey of our company has been marked with tremendous contribution in all sphere and activities. All through our journey we have felt indebted by our late Chairman Sh. Kimti Lal Chopra who had a vision & expertise to provide a very good quality products & service. As well as he works culture of thought transparency and fair dealing with all our customers.

With all your love and my father's blessings may RSI continue to reach height, everyday.. everywhere...

Kamal Chopra

It gives me immense pleasure to reach out to the ever increasing 'RSI' group fraternity and congratulate every single hand that has helped name shaping up this company to its epitome. We firmly believe that the race for quality indeed, has no finishing line.

Even as our production volumes continue to increase, the dictum never forgotten by us is that quality is never an accident, it is always the result of noble intentions, sincere efforts, intelligent direction & skillful execution.

We have etched in our minds that perseverance in not a single long race but many short races, one after the other.

Looking forward to your benefaction, as always.

Vikas Chopra

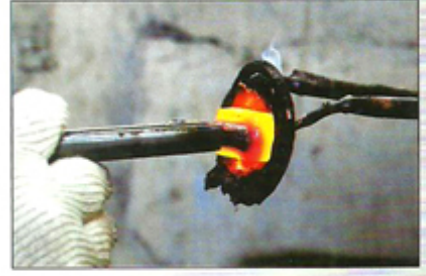

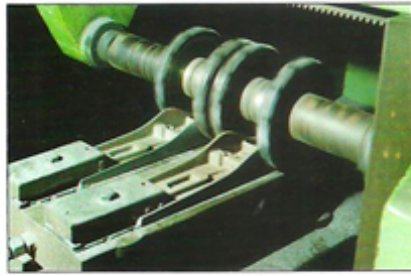

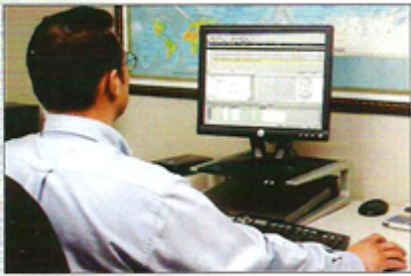

RS Industries has been India's leading name in manufacturing hand tools since 1965 & is a visionary dream of founder chairman late Sh. Kimti Lal Chopra.

The Company is a self-contained fully equipped unit with latest machinery, modern technology and excellent infrastructure to cope up the commitment to buyers for providing a comprehensive line of world class professional hand tools.

'RSI' Hand Tools are perfectly designed and made out of selected steel as per international standards and specifications. Starting from raw material selection upto the final finished products, its hand tool are manufactured under stringent tests. The continuous research of precision and excellence. Placing a firm emphasis on quality, rigorous standards of inspection are exercised at every stage of production to ensure that each and every product confirms to an embodiment of engineering perfection.

We are always known for our quality across the nation & international markets, has done a tremendous job in latest years. This memorable journey is like a marker on a map and guide us to future.
